

Call for creative people with an interest in Philadelphia's history

FRIEDAcommunity is seeking artistic individuals to join us in Phase 2 of our Map Discovery Project, which showcases areas of interest in our neighborhood.

Artists of all ages and experience are invited to participate in this creative community activity.

After you have registered, FRIEDAcommunity will provide you with a photograph of a specific destination for you to portray.

Our goal is to find a variety of artists, each choosing their personalized approach, from pen-and-ink drawings to oil paintings, watercolors, collages, multimedia, 3-dimensional media ...

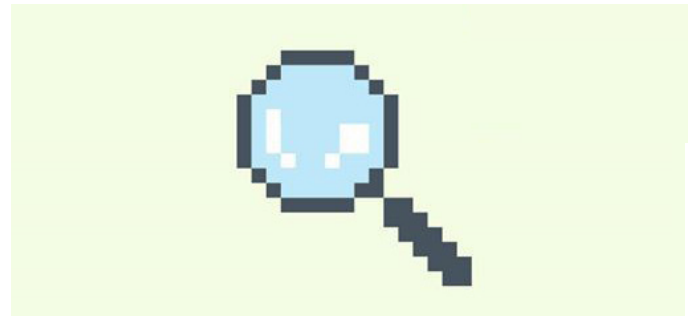

The Map Discovery Project is a collaborative mapping and website endeavor with added audio information and individualized renderings, made by you and other volunteers, to showcase areas of interest, local treasures, and oddities that tell the story of our neighborhood.

Phase 1 began in 2020, when volunteers walked through the neighborhood, researching 100 locations that we recognized as having the potential to appeal to both visitors and residents from other communities.

We look forward to involving you and even more people in this creative venture, exploring and sharing the richness of this historical part of the city.

There is no fee to apply.
All content will be free for all to access online.
Artists' work will be credited, including artist contact information.
FRIEDAcommunity also intends to host a "Meet the Artists" event.

Please email hello@frieda.community to indicate your interest.
